[redacted] Chairman, BW/CW Joint PI Team

Plans for Briefings

1. Yesterday we received a verbal request from [redacted] the CW specialist of OSI, for the production of nine briefing boards on Volsk Proving Ground. He has been asked to brief the Director on the CW aspects of Mission 8005 toward the end of January and he needs the boards for this purpose. Enlargements and a mosaic were selected from our file for this purpose. This request was cleared through channels to [redacted] and [redacted] instructed CCS to handle the request. [redacted] will levy a requirement for the boards by G-number. He agreed to take the boards on temporary loan only and to accept Viewgraph slides for permanent retention.

2. On the same day [redacted] Chief of the Applied Science Division of OSI, asked me to give a briefing on Volsk Proving Ground at 0930 on 13 January 1960 before his BW/CW Working Group at Barton Hall. This briefing will give them a background on which this joint-service group can levy a combined requirement on Volsk. The service members of the Joint PI Team will assist in the briefing.

3. On 5 January the Joint PI Team also briefed a group of five people, headed by Dr. Brewer and Dr. Main, from ONI.
